

D. GEORGE SWEIGERT, C/O
336 BON AIR CENTER #241
GREENBRAE, CA 94904

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF VIRGINIA
RICHMOND DIVISION

ROBERT DAVID STEELE, ET. AL.

Plaintiff,

vs.

JASON GOODMAN, ET. AL.

Defendant

Case No.: 3:17-CV-601-MHL

DECLARATION OF D.
GEORGE SWEIGERT

FIFTH DECLARATION OF D. GEORGE SWEIGERT

Now comes D. George Sweigert, a non-attorney layman and California licensed Emergency Medical Technician, to affirm and attest to the below facts under penalties of perjury. The undersigned attests and affirms that all attached exhibits are true and accurate copies of sources (such as Internet web sites).

I. JASON GOODMAN'S ASSOCIATION WITH QUINN MICHAELS

Defendant Jason Goodman has published yet another YouTube video production with the "CrowdSource The Truth Researcher" Quinn Michaels (Korey Atkin) directed at the undersigned ("Elvis Presley – The Devil in Disguise? The King, The Covenant, and the #TimePhoneHack", 5/26/2018). [Exh. 1].

During the course of this video, defendant Goodman holds up to the camera and allows his audience to read the FIRST DECLARATION OF D. GEORGE SWEIGERT [Doc. 51, 5/22/2018].

It appears that nearly 40-50% of this video is directed at discussing the undersigned and the document located at [Doc. 51, 5/22/2018]. During the YouTube video Mr. Goodman comments:

36:28: GOODMAN: "The example that I am thinking of right now. It's got to do with our same favorite friend, the guy [the undersigned] who is sending people to visit you there in Shasta". [Exh. 1].

DENIED. The undersigned DENIES that he has directed, guided or encouraged individuals to visit Mr. Michaels (Atkin) in any location, at any time, for any purpose. This insinuation by Mr. Goodman is denied in its entirety in all its forms. The undersigned does not engage in the practice of "sending people" to meet anyone. This notion is completely false and is denied by the undersigned in its entirety.

DECLARATION OF D. GEORGE SWEIGERT - 1

1 37:52: GOODMAN: "How he [undersigned] has had zero contact with Mr. Steele [plaintiff]. (Reading
2 from [Doc. 51, 5/22/2018]). No Skype messages, no phone calls, no e-mail messages. Now, he [undersigned] does
3 say or any other means of communication with Mr. Steele. But, I don't think that precludes encoded messages that
4 could be transmitted in – oh I don't know – cryptic bizarre YouTube videos perhaps". [Exh. 1].

5 **DENIED.** Once again, the undersigned DENIES the notion that he is, or ever has, encoded messages into
6 YouTube videos. The undersigned has no desire, intention or urge to transmit any type of message to anyone acting
7 as an agent, interested party or Mr. Steele [plaintiff]. The notion that any encoded communications has been placed
8 in any electronic media – in any form – for the purpose of communicating a message to the plaintiff (with the
9 exception of a related routine evidence preservation and anti-spoilation notice) is hereby denied. [Exh. 2].

10 Mr. Goodman continues in his 5/26/2018 video:

11 40:53: GOODMAN: "He [undersigned] does go one to describe in this letter [Doc. 51, 5/22/2018] that he ,
12 uh, was in the U.S. Air Force and that he provided radio support -- and. I mean, this sounds like signals intelligence
13 type of stuff, right? Radio operators in the military would be familiar with that technology. Wouldn't they?"

14 41:11: QUINN MICHAELS: "Military radio operator would be a signals intelligence specialist. SIGINT as
15 they call it. And anyone. They call it telephony. You know, SIGINT. You know, anything that deals with digital
16 or analog communications is considered to be – you know – comms or signals intelligence." [Exh. 1].

17 41:30: GOODMAN: "So sorta (reading from [Doc. 51, 5/22/2018]) high frequency communications
18 between basecamp and in-flight helicopters. Is that what you mean?." [Exh. 1]

19 41:36: QUINN MICHAELS: Yes.

20 **DENIED.** Once again the undersigned DENIES the notion that he is, or ever has, been involved in what is
21 described as "signals intelligence" by Mr. Goodman or Michaels. This is an incorrect, false and completely un-
22 informed opinion about military communications and that the undersigned has somehow been trained in "SIGINT".

23 **DENIED.** At no time has the undersigned participated in the "interception of signals" for the purpose of
24 performing intelligence analysis on such signals. Any notion that the undersigned was collecting, processing,
25 intercepting or gathering signals for intelligence analysis while a member of the U.S. Air Force is hereby **DENIED.**

1 During his Honorable service to the U.S. Air Force, while in Latin America, the undersigned maintained,
 2 troubleshoot, and repaired communications equipment for use by Air Traffic Controllers maintaining knowledge of
 3 in-flight helicopters via position reporting to facilitate flight following. The undersigned was not assigned to operate
 4 such equipment and would not have been classified as a "radio operator".

5 Attached as Exhibit Three is the description of the tasks assigned to a Ground Equipment Radio
 6 Repairman, Air Force Specialty Code, 30454. [Exh. 3].

7 In sum, the 30454 career field includes duties such as "operationally check UHF or VHF equipment, isolate
 8 malfunctions within UHF or VHF equipment, align UHF or VHF equipment or subassemblies, operationally check
 9 HF equipment, etc. [Exh. 3]

10 While the undersigned was assigned to these duties with the U.S. Air Force in Latin American flight
 11 following consisted of having knowledge of an aircraft location and condition with a reasonable degree of certainty
 12 such that, in the event of a mishap, those on board may be rescued. If, in the event of communications loss with a
 13 helicopter, the flight following radio operator could begin a search party to the last known position report.

14 As stated on Wikipedia:

15 Signals intelligence (SIGINT) is intelligence-gathering by interception of signals, whether communications
 16 between people (communications intelligence—abbreviated to COMINT) or from electronic signals not
 17 directly used in communication (electronic intelligence—abbreviated to ELINT). Signals intelligence is a
 18 subset of intelligence collection management.
https://en.wikipedia.org/wiki/Signals_intelligence

19 II. REPORTING OF SUSPICIOUS ACTIVITIES RELATED TO "TEAM TYLER"

20 Attached as Exhibit 4 is an electronic mail message that addresses an individual interviewed by Jason
 21 Goodman on CrowdSource The Truth on 12/21/2017, entitled "Retired Juggalo Gail on the Gangster Music
 22 Industry". [Exh. 4].

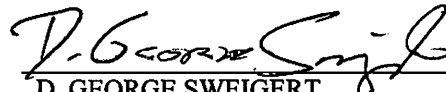

23 Included as Exhibit 5 are attachments to the above listed e-mail [Exh. 4] which accompanied the e-mail
 24 body that was transmitted. [Exh. 5]. This first attachment indicates that a user known as "GAILWINDS" using a
 25 "TeamTyler" logo transmitted a link in a "TeamTyler chat session at 11:58, 12/31/2017. The remaining attachments
 26 provide a capture of cryptic directions to chat room participants to acquire various Internet-based "hacking tools"
 27 and appears to provide potential targets to the chat room members. [Exh. 5].
 28

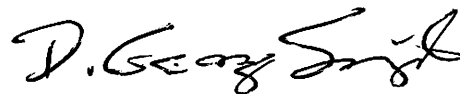

1 Attached as Exhibit 6 is the designation certificate that indicates the undersigned has been recognized as
2 "Certified in Homeland Security – Level III". [Exh. 6].
3
4

5 The undersigned attests and affirms that all attached exhibits are true and accurate copies of sources (such as
6 Internet web sites).

7 All of the foregoing is attested to and sworn to under the penalties of perjury.

DECLARATION OF D. GEORGE SWEIGERT - 7

EXHIBIT TWO

From: Spoliation Notice <spoliation-notice@mailbox.org>
To: colin@patreon.com, legal@patreon.com, disable@patreon.com
Cc: truth@crowdsourcethetruth.org, contact@unrig.net, Spoliation Notice <spoliation-notice@mailbox.org>, feedback <feedback@calbar.ca.gov>, info <info@privacyrights.org>
Date: November 29, 2017 at 7:15 PM
Subject: Litigation hold -- Doxing and Harassment
To:
Colin Sullivan
Bar no. 285203
General Counsel
Patreon, Inc.

Dear Sir,

This notice requests that you begin the process of a litigation hold on all electronic evidence stored, processed or transmitted by your organization for the following account:

crowdsourcethetruth

The operator of this account is a defendant in a federal lawsuit:

Jason Goodman

This request is an evidence preservation request to prevent spoliation of electronic evidence that will be sought in federal litigation (please consult Federal Rules of Civil Procedure for guidance).

Mr. Goodman is a defendant to allegations that concern public doxing, copyright violations, harassment and hate speech. All which appear to violate the community standards policy of Patreon.

Recently, Mr. Goodman has allegedly published a series of videos on your platform that attack the privacy, physical characteristics, and intelligence of private citizens in the State of California that Mr. Goodman perceives may be friends of the plaintiff in this federal lawsuit.

Therefore, as your company holds this evidence, and as it will be required to be admitted into the court record, a strong request is hereby made that you preserve this evidence (account application, invoices, payments, video content, records of messages, transactions with Mr. Goodman, etc.).

As many of these actions allegedly violate California privacy laws, there is an increased duty to preserve these records as follow-up complaints shall be lodged with the California Attorney General with a copy of this notification.

If your organization allows this behavior to persist, serious consideration will be given to adding Patreon as a co-defendant in this federal litigation -- as your company will only be aiding in the distribution of the offense material.

This is a very serious matter as law enforcement has become involved.

Thank you.

number of tasks included in a module, the percent time spent on tasks in that module, a cumulative amount of time spent on the listed modules, the weighted average time spent on each individual task within the module, and finally, an average percentage of members performing the particular task module. These modules were identified through CODAP co-performance clustering, which presents the average probability that if you perform one task you also perform a second task or a group of related tasks. The probabilities are calculated on the actual copformance of tasks by respondents in this survey sample. Representative task modules are listed as a part of the job description. The list of modules with respective tasks is presented in Appendix B.

I. GROUND RADIO EQUIPMENT MAINTENANCE CLUSTER (STG055, N=1,140). This cluster of jobs represents the core work of the career ladder. Fifty-one percent of career ladder personnel work in these jobs and are responsible for maintaining a wide range of base communications equipment and systems, including PA systems, Air Traffic Control (ATC) Services facilities, ATC radio maintenance, ground air transmitters/receivers, and the Tactical Air Control System. They operationally check, align, isolate, remove, replace, install, and bench check every equipment item and component of a ground radio communications system. These are the broadest jobs of any identified, with personnel performing an average of 131 tasks. Examples of tasks performed include:

operationally check UHF or VHF equipment
isolate malfunctions within UHF or VHF equipment
align UHF or VHF equipment or subassemblies
operationally check HF equipment
align or adjust internal circuitry of GRCE
remove or replace UHF or VHF equipment subassemblies
isolate malfunctions within HF equipment
bench check UHF or VHF transceivers or subassemblies
align or adjust external controls of GRCE
align or adjust power amplifiers
bench check UHF or VHF equipment components

Representative task modules for this cluster include:

<u>TM</u>	<u>MODULE TITLE</u>	<u>NO. OF TASKS</u>	<u>PERCENT TIME SPENT</u>			<u>AVG PCT MBRS PERF</u>
			<u>SUM</u>	<u>CUM</u>	<u>AVG</u>	
0002	UHF/VHF Equipment	11	8	8	.76	70%
0003	HF Equipment	18	11	19	.62	65%
0001	Supply Ordering	6	3	22	.55	59%
0004	Recorders-Reproducers	7	3	25	.41	46%
0005	Communications Consoles	11	4	29	.37	42%
0006	PA Systems	14	4	33	.30	35%
0009	FM Equipment	6	2	35	.30	33%

The modules clearly display the wide diversity of equipment maintained by personnel in this cluster and show the predominant concentration on UHF, VHF, and HF equipment.

Personnel working in this cluster are fairly experienced, with only 17 percent in their first-enlistment, and 63 percent holding a 5-skill level. The average TAFMS for these incumbents is 103 months, and the predominant paygrades of the job incumbents are E-4 and E-5.

Within this large cluster, two distinct jobs were identified and warrant discussion. These were the (1) Contingency and Mobile Equipment Maintenance job (STG298, N=255) and (2) the Missile Radio Maintenance job (STG256, N=30).

Personnel in the Contingency and Mobile Equipment Maintenance job are involved with UHF, VHF, and HF equipment, but perform more mobile operations tasks. These include such tasks as:

- operationally check mobile GRCE
- pack mobility or contingency equipment for shipment or movement
- set up or tear down mobile antenna systems
- fire weapons for proficiency
- operationally check mobile antenna systems
- erect tents
- set up or tear down mobile communications vans
- install station grounds for vans or shelters
- transport mobility or contingency equipment to or from deployed locations
- align or adjust mobile antenna systems
- don or doff chemical warfare personal protective clothing

Representative task modules for this job include:

<u>TM</u>	<u>MODULE TITLE</u>	<u>NO. OF TASKS</u>	<u>PERCENT TIME SPENT</u>			<u>AVG PCT MBRS PERF</u>
			<u>SUM</u>	<u>CUM</u>	<u>AVG</u>	
0003	HF Equipment	18	11	11	.60	74%
0002	UHF/VHF Equipment	11	6	17	.56	70%
0001	Supply Ordering	6	3	20	.51	62%
0009	FM Equipment	6	3	23	.47	59%
0023	Mobile Operations	54	22	45	.42	51%

These modules clearly indicate the primary work is with HF, UHF, and VHF equipment. However, 22 percent of the job time is spent on the 54 tasks comprising the Mobile Operations module, confirming a heavy involvement with mobility and contingency tasks.
